

DOMINICAN REPUBLIC

MARPOL Convention

The Dominican Republic is signatory of the MARPOL Convention.

Date of signature or deposit of instrument	Date of entry into force or succession
24 June 1999	24 September 1999

The Dominican Republic has ratified the Annexes I, II, III, IV and V.

MARPOL Annex VI

The commission of the Dominican Republic designated to the MARPOL Annex VI is conformed by:

- Port Authority
- Ministry of Environment and Natural Resources.

These entities are leading and assisting with the administration of MARPOL Annex VI monitoring and enforcement efforts.

MARPOL Annex VI

Legal Status

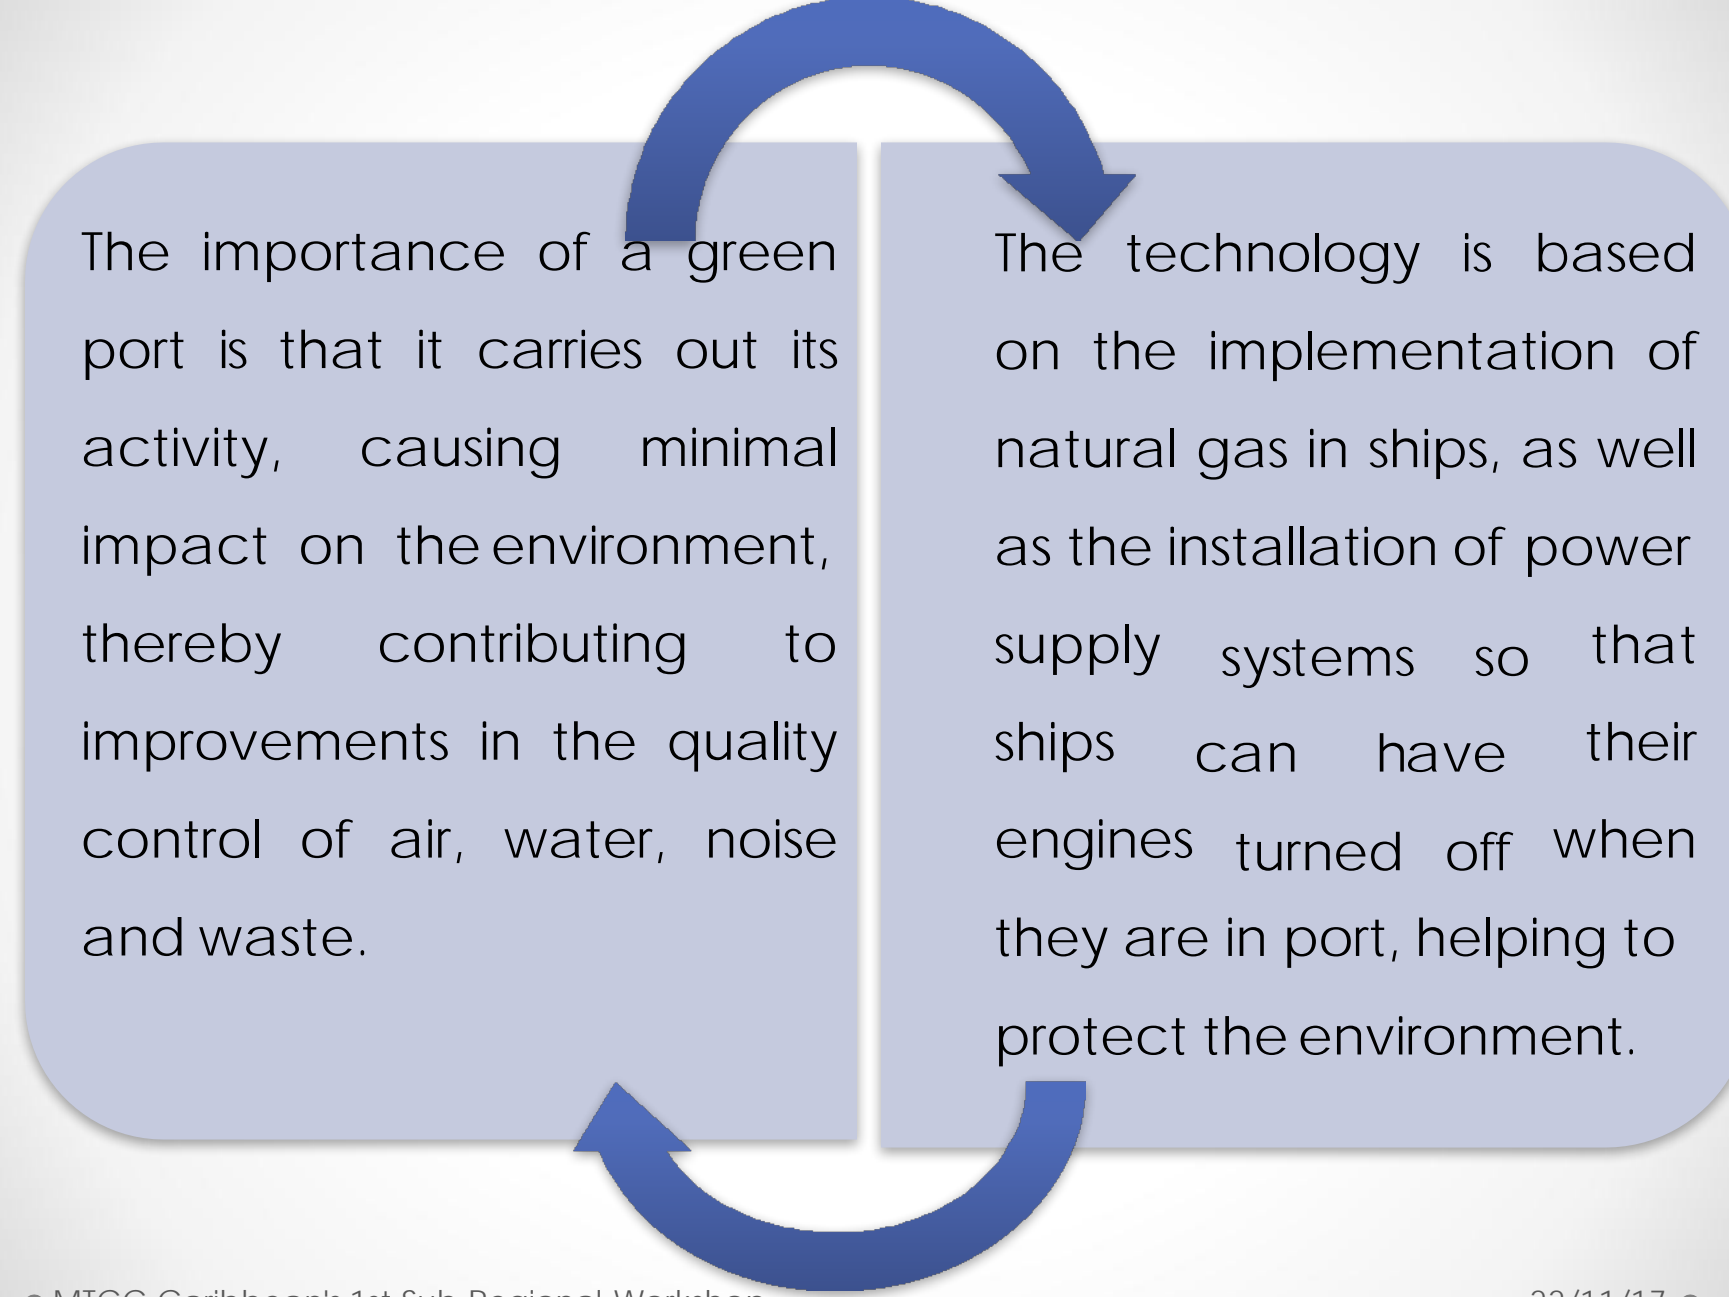

- The Dominican Republic is interested in ratifying this annex and currently the commission is working on the elaboration of an internal regulation of application and competences, to determine the attributions that would correspond to each institution once this Annex VI enters into force.

MARPOL Annex VI

Technology
Uptake

- The Port Authority of Dominican Republic is implementing sustainable policies through the development of green ports.

The importance of a green port is that it carries out its activity, causing minimal impact on the environment, thereby contributing to improvements in the quality control of air, water, noise and waste.

The technology is based on the implementation of natural gas in ships, as well as the installation of power supply systems so that ships can have their engines turned off when they are in port, helping to protect the environment.

MARPOL Annex VI

The data for monitoring and enforcement measures are fully within the competence of the Dominican Port Authority, for which we cannot give official information on these issues.

We are committed that once the commission provides us with the Dominican Republic report on MARPOL Annex VI, we will send it to the MTCC Caribbean.

Thank You!
