

OUTCOMES OF 3RD SUB-REGIONAL

Vivian Rambarath-Parasram & Capt Sukhjit Singh

*Director & Head, Deputy Director & Technical Head
MTCC Caribbean,
The University of Trinidad and Tobago*

Outcomes

- Need for effective integration of the Maritime Sector in the Climate agenda of all MTCC territories
- Emphasized the need for legal and institutional reform so the status of the existing legal and institutional reform has been confirmed
- All countries welcomed partners for implementation
- Preliminary results from pilot projects were shared and the initial challenges identified.
- Participants sensitized to technology options for their fleets

Next Steps

- Facilitate the dialogue between the Technology providers and state actors to facilitate local and regional uptake
- Webinars for training requirements of the maritime administrations
- Lobby State actors for representation at the CARICOM to create and influence a regional maritime agenda
- Synergize efforts for data collection with the CMOU
- Representations at the Senior Maritime administrators
